

## HUIHUI JIANG

Info: <https://hhjiang91.github.io/>

Email: hhjiang13@gmail.com

Tel: +8615656930230

Address: No.443 Road Huangshan, Hefei, Anhui, 230027, P.R.China

### Interests

Network virtualization, Design of web

### Education

**M.S. in Information and Communication Engineering**  
University of Science and Technology of China

Expected July 2016

**B.S. in Communication Engineering**  
Hefei University of Technology

July 2013

### Publications

[C1] **HuiHui Jiang**, Long Gong, Zuqing Zhu, “Efficient Joint Approaches for Location-Constrained Survivable Virtual Network Embedding,” **accepted for** presenting in Proceedings of IEEE Global Communications Conference (GLOBECOM), Dec. 2014.

### Experience

**QA Intern in IFLYTEK CO.,LTD.**

October 2012 ~ January 2013

Participated in tests of related products in manager of mobile Internet;  
Wrote test scenarios and test case.

**Virtual network embedding system design**

November 2013 ~ January 2014

Cooperative project with Institute of acoustics in Chinese Academy of Sciences;  
Designed and realized virtualization of the physical resource based on SuperNova in our laboratory;  
Took charge of the algorithm design using Python, and deployed the module under linux environment.

**Study about survivable virtual network embedding**

November 2014 ~ February 2015

Research in my study career;  
Studied the survivable virtual network embedding and designed some new methods based on Matlab, finished an international conference paper .

**Study about construction of platform and key technology in the project Haiyun**

September 2013 ~ July 2014

Cooperative project with Chinese Academy of Sciences;  
Realized the current network experiment system without interruption in the future internet based on the new protocol OpenFlow;  
Finished the algorithm design and builded the database.

### Skills

Skilled at **Java**, Html/Javascript;  
Good at using database by **Mysql** or Mongo;  
Familiar with **Python**, php, **Linux**;  
Good adaptive capacity and high problem-solving ability;  
Spoken English in general.
